She’s well within her rights to keep the baby, and that doesn’t make her selfish for wanting to keep it now.

No one is that desperate for attention and most certainly not Zarin, who proves that she can still have the same level of success before and after Bravo.

(Nardil), rasagiline (Azilect), selegiline (Eldepryl, Emsam, Zelapar), or tranylcypromine (Parnate) A decrease.

That way, the opportunity is eliminated entirely.
